FOR IMMEDIATE RELEASE

Primeau Consulting Group announces partnership with CompliancePro Solutions

Torrance, California March 10, 2014

Primeau Consulting Group has announced a partnership with CompliancePro Solutions, a Columbus, Ohio based software and services company that provides solutions to address patient privacy and security.

“We welcome the opportunity to partner with another company that cares as deeply about privacy and security as we do,” said Debra Primeau, President of Primeau Consulting Group. “This partnership will allow Primeau Consulting Group clients to have the tools, software and services they need to ensure that PHI stays private and secure.”

“The partnership with Primeau Consulting Group allows CompliancePro Solutions to add the talent and experience of Primeau Consulting Group consultants and provide a more complete solution,” stated Paul Albrecht, CompliancePro Solutions CEO. “We will be able to expand our product offering and the ability to deploy more clients more rapidly than ever before.”

About Primeau Consulting Group

Primeau Consulting Group is a privately held, WBENC certified full-service healthcare IT consulting firm based out of Torrance, California. Primeau Consulting Group has assisted with the selection, design, build, implementation, and project management of healthcare IT systems, HIM Services, ICD-10, and Revenue Cycle projects in facilities across the country.

About CompliancePro Solutions

CompliancePro Solutions was founded in 2010 to focus on the growing need for technology and services to address patient privacy and security. PrivacyPro™, our web-based privacy compliance management tool, reduces both the costs and risks associated with managing the privacy of patient data and handling HIPAA mandated requests. CompliancePro also provides security and privacy risk analysis and consulting services to healthcare organizations, both large and small.
